IPAC Lapse Investigation	Yes	No	N/A	Please provide further details/steps
Did the IPAC lapse involve a member of a regulatory college?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
If yes, was the issue referred to the regulatory college?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Were any corrective measures recommended and/or implemented?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Please provide further details/steps

Corrective measures for Premises/Facility:

- Follow and maintain aseptic technique during cannulation process for fistula and connection process for central vascular catheter access line.
- Follow indications and established moments for hand hygiene.
- Follow Manufacturer's Instructions for Use when using disinfectant wipes and the correct contact time required for disinfection is achieved.
- Clean and disinfect patient care devices/equipment and environmental surfaces in accordance with infection prevention and control best practices.
- Handle and store patient care supplies in a manner that prevents cross-contamination.
- Do not use disinfectants past their expiry date.
