PROVINCIAL												
Hydro One Networks Inc.	Susan	SUN Hongxia						CentralFBCPlanning@HydroOne.com; SecondaryLandUse@HydroOne.com; Susan.SUN@HydroOne.com			221121_Email+Letter. Hydro One confirmed a preliminary assessment which is based on the current information, shows there are no existing Hydro One Transmission assets in the subject area. It was noted that if plans for the undertaking changes or the Study Area expands, contact Hydro One to assess impacts of existing or future planned electricity infrastructure. It was requested that any future communications be sent to Secondarylanduse@hydroone.com. 220303_Email+Letter. Hydro One confirmed a preliminary assessment which is based on the current information, shows there are no existing Hydro One Transmission assets in the subject area. 211129_Email+Letter. Hydro One confirmed a preliminary assessment which is based on the current information, shows there are no existing Hydro One Transmission assets in the subject area.	221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm.
Ministry of the Environment, Conservation and Parks, Environmental Assessment and Permissions Branch								eanotification.cregion@ontario.ca				221117_Email. Burnside sent email with attached notice of OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm and Project Information Form.
Ministry of the Environment, Conservation and Parks, Environmental Assessment and Permissions Branch	Erinn	Lee	Environmental Resource Planner/ EA Coordinator	135 St. Clair Ave W	Toronto	ON	M4V 1P5	Erinn.Lee2@ontario.ca	416-357-1511		230201_Email from Region- MECP currently doesn't have an EA Coordinator for the York Region area. Send correspondence to the Central Region EA Notices email (eanotification.cregion@ontario.ca). 220303_Email. Central Region TSS noted that a meeting is not necessary. Staff noted comments of the proposed identification of sensitive and critical receptors dated January 27, 2022. MECP comments are: recommendation that one additional receptor at the intersection of Warden Avenue and Elgin Mills; that the AQIA should provide rationale as to how the receptors identified were selected (i.e., closest to intersection, high traffic counts, etc.); and if AERMOD is used, the approved model version is 19191. 220127_Email. MECP noted that technical reviewers have requested the opportunity to review the memo prior to setting a meeting date, as a meeting may not be necessary. 220124_Email. MECP requested that proposed air quality methodology be shared with technical review in advance of meeting for its review, and noted staff will be advised of meeting. 211217_Email. Erin Lee noted that MECP will not participate in TAC. 211215_Email. MECP sent email to decline participation in TAC meetings, and requested that the TAC activities are documented in the ESR. MECP also encouraged that the draft ESR be sent to MECP and other agencies prior to filing the final ESR. 211209_Email+Letter. MECP acknowledged NOCm. MECP noted that the Indigenous communities of October 22, 2021 letter stand. MECP requested that the draft ESR be sent prior to filing, allowing 30 days for review; and ensure the final notice is sent to Erin Lee and the ministry's Central Region EA notification email account (eanotification.cregion@ontario.ca) after the draft report is reviewed and finalized. 211203_Email. MECP requested a Project Information Form be completed; and once received a letter of acknowledgement would be provided with a list of Indigenous communities from MECP Indigenous Advisor. 211022_Email. MECP noted Indigenous communities with possible interest in this project as: Williams Treaties (Treaties Coordinator Kary Sandy McKenzie), Chippewas of Georgina Island First Nation, Chippewas of Rama First Nation, Beausoleil First Nation, Curve Lake First Nation, Mississaugas of Scougog Island First Nation, Hiawatha First Nation, Alderville First Nation, Mississaugas of the Credit First Nation and Huron-Wendat Nation, if there is potential for the project to impact archeological resources.	221117_Email. Burnside sent email with attached notice OOH #2. 220218_Email. Region attached Air Quality Memo for MECP's review and comments; and noted that as staff will be discussing ECA permits at the meeting it was requested that Paul Heeney be invited. 220215_Email. Region confirmed with MECP the staff needed for meeting. 220224_Email. Burnside sent email with attached notice OOH #1. 220124_Email. Region noted that Burnside will finalize the draft air quality assessment methodology memo and forward to MECP. 220124_Email. Region noted that Burnside will be completing air quality assessment; and requested to meet with MECP staff to review methodologies of completing this assessment to ensure it meets MECP's expectations. 211209_Email. Region responded confirming receipt of information from MECP. 211206_Email. Burnside responded that the Project Information Form was submitted to the EA notifications Central Region – eanotification.cregion@ontario.ca on November 25, 2021 with the Notice of Commencement; and also the Indigenous communities provided by MECP on October 22, 2021. 211125_Email. Burnside sent email with NOCm 210922_Email. Burnside requested confirmation of Indigenous communities to contact for the Project, which was based on previous project experience. Burnside noted to MECP that the Indigenous communities who may have an interest in this project would be Mississaugas of the New Credit First Nation, Mississaugas of Scougog Island First Nation, Curve Lake First Nation, Alderville First Nation, Hiawatha First Nation, Williams Treaty Kerry Sandy-McKenzie.
Ministry of the Environment, Conservation and Parks, Land and Water Division, Species at Risk Branch	Paul	Heeney	Manager, Permission and Compliance	50 Bloomington Rd,	Aurora	ON	L4G 0L8	paul.heeney@ontario.ca	905-713-7372			221117_Email. Burnside sent email with attached notice OOH #2. 221116_Email. Burnside sent TAC members the presentation and the detailed evaluation matrices from TAC 2 meeting. Note that the content on Slides 17-20 of the attached presentation will be amended for the upcoming Online Open House #2 (OOH #2) presentation. Comments were requested by January 6, 2023. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm
Ministry of the Environment, Conservation and Parks, Land and Water Division, Species at Risk Branch	Jeff	Andersen	Management Biologist	50 Bloomington Rd,	Aurora	ON	L4G 0L8	jeff.andersen@ontario.ca	289-221-1705		220117_Calendar invite to TAC declined 211125_Email. Burnside sent email with NOCm
Ministry of the Environment, Conservation and Parks, Land and Water Division, Species at Risk Branch	Trevor	Bell	Regional Environmental Planner	5775 Yonge Street	Toronto	ON	M2M 4J1	trevor.bell@ontario.ca	437-770-3731		230622_Email. TB responded to Draft ESR report: The ministry has reviewed the draft Environmental Study Report (draft report) for the Warden Avenue Schedule C Municipal Class EA study in the city of Markham. We understand that the preferred alternative is to widen the corridor to four lanes with a limited marked median island. The following comments are offered for your consideration: 1.The ministry recommends developing a Salt Management Plan to address the potential impacts to surface water and groundwater features from surface water run-off due to the application of road salt during winter maintenance activities. 2.The ministry supports conducting a water well survey for shallow wells within the study area, and developing a mitigation and monitoring plan, and a complaints protocol to address potential interference with wells during the construction phase. 3.The noise impact assessment should reference the ministry's Environmental Noise Guideline – Stationary and Transportation Sources – Approval and Planning (NPC-300), and ensure that exceedances of noise limits are mitigated in accordance with NPC-300. 4.The ministry recommends that non-chloride dust suppressants be used for the entrainment of fugitive dust particles during the construction phase. 5.Section 13 General Approval and Permit Requirements of the draft report should identify the potential requirement for a Permit to Take Water (PTTW) or Environmental Activity Sector Registry (EASR) due to construction dewatering. An EASR will be required for construction dewatering between 50,000 and 400,000 litres per day, and a PTTW will be required if dewatering exceeds 400,000 litres per day. No other technical comments are expected. We are satisfied with the hydrogeological review and the stormwater management report, and that potential impacts to water resources will be avoided or minimized with the identified mitigation measures in place.	
Ministry of the Environment, Conservation and Parks - Environmental Assessment and Permissions Branch								MEA.NOTICES.EAAB@ontario.ca			Notice of Completion Only	
Ministry of Municipal Affairs and Housing, Central Municipal Service Office	Sean	Fraser	Regional Director (A)	College Park 777 Bay Street, 13th Floor	Toronto	ON	M5G 2E5	sean.fraser@ontario.ca;				221117_Email. Ministry Citizenship and Multiculturalism	Laura	Hatcher	Heritage Planner	401 Bay Street Suite 1700	Toronto	ON	M7A 0A7	laura.e.hatcher@ontario.ca			220117_Email. Out of office note received; no response to TAC 211223_Email. MHSTCI requested that Laura Hatcher be added to TAC invitation. MHSTCI's interest relates to conserving Ontario's cultural heritage resources include archaeological resources, built heritage resources, and cultural heritage landscapes. Proponent is required to determine potential impact on known and potential cultural heritage resources. It was noted that the project may impact archaeological resources and should be screened using the MHSTCI Criteria for Evaluating Archaeological Potential to determine if an archaeological assessment is needed; then if the area exhibits archaeological potential, then an Archaeological Assessment (AA) should be undertaken by an archaeologist licenced under the Ontario Heritage Act (OHA), and submit the report to MHSTCI for review. MHSTCI recommends doing a Cultural Heritage Report, Step 1 undertaken early in planning process, Steps 2 and 3 can be undertaken once the preferred alternatives have been selected. Steps described as (1) description of existing baseline cultural heritage conditions, (2) identify preliminary potential project-specific impacts, (3) Recommend measures to avoid or mitigate potential negative impacts. MHSTCI recommends engagement with Indigenous communities for any knowledge that can contribute to the identification of cultural heritage resources. MHSTCI requested that the studies and recommendations be incorporated into the ESR, and advise MHSTCI of any reports completed and provide to MHSTCI prior to NOCp. It was noted that if no known or potential CHR or no impacts, include checklists and support docs in ESR.	221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm

City of Markham	Han	Liu	Streetscape Coordinator, Urban Design					Hliu@markham.ca			230308_Email from City. Reaching out in regard to public transit stops along Kennedy and Warden at the FUA, stretching from Major Mackenzie to Elgin Mill. The City is reviewing development applications at the FUA. Hoping to ensure pedestrian connections from future communities to the transit stops along 2 roads. Asking the Region to share any drawings that indicate transit stops alongside the road. Asking if the EA study would involve any changes to transit stops there.	230309_Email from Region. As part of the EAs on Warden/Kennedy we are anticipating transit stops at each of the collector roads as well as Major Mackenzie and Elgin Mills intersections. If there are other locations that the City feel we should provide transit stops please let me know and we will consult with York Region Transit team. Please note currently there are no transit services north of Major Mackenzie Drive.
City of Markham	Marina	Riad		101 Town Center Blvd.	Markham	ON	L3R 9W3	mriad@markham.ca			230622_Email from MR. comments from the City regarding Draft ESR. New comments start at item #26. 230306_Email from the City. Confirmation that Victoria Glen was completed in 2020. Waiting on your team's response on our follow up comment. 230302_Email from the City. Gave thanks for providing responses to comments. Team has reviewed, and only 1 comment - see attached for comment #25. 230210_Email from City. Gave thanks for study team responses. Will circulate internally and review. Will let you know if they have further comments. 230113_Email from City with attachment to drawings in regards to comment 15 of OOH2. 230112_Email from the City. Attached to the email is their comments along with attachments relating to their comments. Comments for PIC#2 start at item 10 on both sheets attached to excel file. It is believed that the City has not yet received a response to their previous comments (1-10) and have asked for those to be addressed as well. 230105_Email from the City. They are currently compiling comments from staff and should have comments ready by end of week. 221201_Email from the City. Confirming that the material that Jennifer circulated, is the same evaluation matrix and more updated presentation that we have in the OOH #2.	230307_Email from Burnside. Gave thanks for confirmation on completion date. Regarding the City's follow up comment for Warden Avenue, we can confirm that since the Online Open House 2, the Warden Avenue preliminary design plans have been updated and shows a four-lane configuration for the collector road EW-1. 230302_Email from Burnside. Thanks for providing additional feedback. Copying the team working on the preliminary design plans and ask that they look further at the collector road EW-1/Warden Avenue intersection configuration to confirm we are showing four lanes on EW-1 through this intersection. As part of prep of the draft ESR, we are hoping to confirm date of completion for all Collector Road Class EAs part of the North Markham FUA. Have been able to confirm all completion dates except for the Victoria Glen EA as links provided on City's webpage are temporarily unavailable. Was the Victoria Glen Class EA completed in 2020, like Berczy Glen and Robinson Glen? 230206_Email from Burnside. Attached the study team responses to City comments. Note, comment 15, expanded into separate rows to capture Urban Design team comments provided on separate PDF file. 230113_Email from Burnside. Gave thanks for providing City staff comments on OOH 2 slides. Regarding comment 15 (both Warden and Kennedy) please clarify where mark-up drawings can be found in reference to comment. 230105_Email from Region. Gave thanks for update. 221206_Email. Burnside sent attached minutes of Technical Advisory Committee Meeting #2. 221117_Email. Burnside sent email with attached notice OOH #2.
City of Markham	Andrew	Crickmay	Capital Works Engineer (PM on Elgin Mills EA)	101 Town Center Blvd.	Markham	ON	L3R 9W3	ACrickmay@markham.ca				221206_Email. City of Markham c/o IBI Group	Carlos	Aquino	Team Lead, Transportation Engineering, IBI	8133 Warden Ave, Unit 300	Markham	ON	L6G 1B3	carlos.aquino@ibigroup.com			230118_Email from Carlos. IBI Group provided plan drawings showing the proposed intersection of Elgin Mills Rd. E. and Kennedy Road as well as constrained section at the intersections with the FUA collector roads for the Region's review and comment.	
City of Markham c/o IBI Group	Chris	Zhang	Engineering Intern, IBI	8133 Warden Ave, Unit 300	Markham	ON	L6G 1B3	chris.zhang@ibigroup.com	905-763-2322 ext 63442		230317_Email from Chris. IBI Group is working on Elgin Mills Class EA and would love to coordinate about Kennedy Road intersection Drainage design. Based on comments, they are required to convey flows from Elgin Mills via sewars along Kennedy rd intersection to discharge flows to Bruce Creek. Please see attached. IBI plans to put Super Pipes on Elgin Mills rd E for quantity control before draining to Kennedy rd, would like to know proposed downstream storm sewer layout and inverts on Kennedy rd intersection to incorporate in design. Request to share drawings.	230320_Email from Burnside. Team meeting taking place today and will get respond on their request including possible dates for a coordination meeting.
City of Markham	Marja	Ilic	Manager, Infrastructure and Capital Projects	101 Town Center Blvd.	Markham	ON	L3R 9W3	milic@markham.ca	905-477-7000 ext. 2354		221017_Email. Region sent email noting that M. Ilic has left the Region. 211125_Email. Email failed. Correction to email and resent	220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm
City of Markham	Mark	Siu	Senior Capital Works Engineer	101 Town Centre Blvd.	Markham	ON	L3R 9W3	msiu@markham.ca	905-477-7000 ext. 2625		221017_Email from Jessica Lee, York Region. Mark Siu is on a leave of absence. All correspondence to be sent to Alain Cachola until otherwise informed. 20729_Email. M. Siu sent attached comments to Matrix; and noted for tracking purposes, a New comments has been added (003) for both Warden and Kennedy EAs. 220711_Email. M. Siu noted that the maps are not regularly updated, however that the status is updated more regularly. M. Siu noted to align with Markham's commenting framework, an update to the application statuses can be provided when review requests is received. 220711_Email. M. Siu sent attached comments to interim ESR reports. 220628_Email. M. Siu requested extension to send comments by July 8, 2022 220615_Email. M. Siu noted he will forward to Andrew Crickmay. 220117_Calendar invitation accepted and attended TAC 211209_Email. M. Siu responded to TAC invite, to continue to send invites to: Mark Siu, Marja Ilic, and Andrew Crickmay.	220628_Email. Burnside confirmed comment date. 220615_Email. Region requested whether Andrew Crickmay (PM for Elgin Mills EA) has been circulated the interim ESRs for review. 220609_Email. Burnside sent link to download interim ESRs for TRCA and City of Markham staff review, and requested comments by June 30, 2022. 220404_Email. Burnside sent attached Minutes of January 25, 2021 meeting. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm

Enbridge	Erica	Larivee						Erica.Polsinelli@enbridge.com;			220225_Email. E. Polsinelli, was appreciative of the summary provided and noted that staff will be in touch.	221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Region sent attached for EA design concepts and the LID information; and summary of meeting discussion; and Action Items: Enbridge, proposes to replace 4" pipe with 6" high pressure steel main from Major Mackenzie Dr. to Warden Ave. (to support Berczy Warden Holdings Development), by late this year to early next year. Current EA Study, expected completion end of 2022. Three alternative design concepts presented at the first open house. Proposed ROW is 41m (or 20.5m from existing centreline) and the road will be widening from 2 to 4 lanes. With different development timing from different landowners, this poses a challenge trying to obtain the required ROW to meet Enbridge's timeline. Following the land purchase/expropriation process, until the earliest the Region will likely obtain all required properties will be 2025-27 Road profile is anticipated to be raised by approximately 1m, due to creek and drainage requirement. LID requirements in road widening projects, will limit location of underground utilities and will need to accommodate all features within the ROW there will be limited ROW allow for utilities within the boulevard YR inquired if Enbridge would allow the gas main under the future curb lane (i.e., around the existing shoulder), underneath future street trees, or allow groundwater seeping over the gas main as possible options, YR suggested that the boulevard space between the back of curb and the LID feature would be a potential location for gas main as well, however, this location may be beyond or very close to the existing ROW limit. Options of providing gas service along Elgin Mills Road was also discussed including connecting within the Berczy Warden Holdings Development property. YR to provide the EA design section concepts and LID info to Enbridge for use, Enbridge to meet internally to review the potential options for gas main extension, and YR and Enbridge to have a follow-up meeting after Enbridge's internal review and discussio.
Enbridge	Heather	Clarke						Heather.Clarke@enbridge.com			220225_Email. Heather Clarke, noted appreciation for the meeting held and the great insight provided for the project. Heather Clarke requested that the first bullet point be updated "due to the loads being added gas is not available to extend the 4" off the west side of Warden Avenue, as Enbridge are planning on running a 6" main on the east side from Major Makenzie Drive.	221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Region sent attached for EA design concepts and the LID information.

OTHER												
Toronto and Region Conservation Authority	Harsimrat	Pruthi	Senior Planner	101 Exchange Avenue	Vaughan	ON	L4K 5R6	harsimrat.pruthi@trca.ca			220117_Calendar accepted/ attended 211210_Email+Letter. Harsimrat Pruthi sent attached letter in response to NOCm. Commenting roles include: TRCA Program and Policy Areas (Natural System and Sustainability), Provincial and Program Areas. TRCA requested that previous comments on the North Markham FUA are considered. TRCA noted Areas of Interest and programs and policy areas; and the assessment of alternatives consider Living City Policy, Section 7. TRCA noted particularly, impacts to and opportunities for: (1) flooding, erosion or slope instability; (2) existing landforms, features and functions; (3) aquatic and terrestrial habitat and functions, including connectivity; (4) TRCA property and heritage resources; (5) Environmental BMP that support climate change mitigation and adaptation; (6) community and public realm benefits. It was noted that TRCA requires that the preferred alternative consider avoiding, minimizing, mitigating and compensation impacts, and avoid, mitigate or remediate hazards. TRCA requires the preferred alternative meet LCP Policies Section 8, at the detailed design stage staff. TRCA requested digital submission of TAC and TRCA agenda, draft and final minutes, draft POH boards (prior to public review), notices and final POH materials; draft Phase 1 and 2 Reports; draft Technical reports (and draft and final ESR) with cover letter, draft evaluation criteria and matrices, with summary detailing how criteria and weighting were established.	221117_Email. Burnside sent email with attached notice OOH #2. 220406_Email. Burnside sent attached Presentation of January 27, 2021 meeting. 220404_Email. Burnside sent attached Minutes of January 27, 2021 meeting. 220224_Email. Burnside sent email with attached notice OOH #1. 220224_Email. Burnside sent email with attached notice OOH #1. 211215_Email. Burnside forwarded invitation to TAC. 211213_Email. Region responded with appreciation for information, and will forward information to Consultant. 211125_Email. Burnside sent email with NOCm
Toronto and Region Conservation Authority	Harsha	Gammanpila	Planner	101 Exchange Avenue	Vaughan	ON	L4K 5R6	Harsha.Gammanpila@trca.ca;	416 661-6600 ext. 5629		230814_Email with letter. Provided cover letter for comments on Draft ESR provided on 230701. 230701_Email. HG responded with TRCA comments on draft ESR. 221130_Email. TRCA Staff reviewed TAC #2 material and have the following comments: Planning Ecology generally does not have any major concerns with the Alternative Design Concepts and the proposed Preferred Design Concept, however there are areas within the project limits with identified environmental constraints to consider, and efforts to mitigate impacts should be incorporated into the design. It was noted that there may be further opportunity to reduce the Preferred Design Concept ROW within areas with identified constraints and requirements for mitigation. It was noted that through the design process, consideration should be made to the design of the culvert at the tributary of Bruce Creek (reference TRCA Crossing Guidelines and any Regional standards) to established and facilitate fish and wildlife passage. TRCA noted that watercourses immediately north and south of the project limits are sensitive watercourses, and support species at risk, and it was requested that at detailed design that any works proposed at these crossings are consider opportunities to avoid impacts or provide improvements where applicable, and TRCA recommends to consult with MECP. 220831_Email. TRCA responded yes that is correct, staff will not be able to review the response to comments as the responses refer to ESR revisions. 220831_Email. TRCA responded that a meeting with the Water Resources Engineer will be set up to discuss comment # 16. 220830_Email. TRCA requested whether the meeting would discuss only comment #16. 220706_Email. TRCA sent attached letter with comments for Kennedy Road ESR - Phase 1 and 2. Attended TAC	221206_Email. Burnside sent attached minutes of Technical Advisory Committee Meeting #2. 221117_Email. Burnside sent email with attached notice OOH #2. 221116_Email. Burnside sent TAC members the presentation and the detailed evaluation matrices from TAC 2 meeting. Note that the content on Slides 17-20 of the attached presentation will be amended for the upcoming Online Open House #2 (OOH #2) presentation. Comments were requested by January 6, 2023. 220831_Email. Burnside requested clarification of TRCA correspondence "as the complete submission is still pending". Inquired if TRCA was referring to the ESR submission in general as, not yet "complete" as complete set of responses to TRCA comments was already provided. 220830_Email. Burnside responded that the meeting would focus on comment #16 as a priority; however, could also discuss questions that TRCA staff have related to the other comment/responses, and can follow up after the meeting with clarification. 220830_Email. Burnside sent Study Team's responses to TRCA comments. Burnside also requested a meeting to discuss comment #16 relating to drainage (for both Kennedy and Warden). 220715_Email. Burnside sent attached detailed evaluation matrices and alternative cross sections for information. Note that the preferred design concepts for both corridors is Alternative 3, which is a 4-lane cross-section with a limited marked median. The alternative design concept cross-sections referenced were illustrated at OOH #1. The Region is proposing a limited marked median for Alternative 3 instead of no median. This change will require a minor adjustment (decrease) to the boulevard widths between the curb and LID on each side of the ROW. Burnside requested any comments on the evaluation matrices by June 29, 2022. 220714_Email. Burnside noted to TRCA that they had reached out to Tim Van Seters for feedback regarding the capacity of LIDs to address pollutants such as salt. Burnside has received a request from a member of the Stakeholder Advisory Committee, so were following up. Burnside also requires this information to complete the LID analysis for the EA. Requested TRCA confirm if Tim is the appropriate contact for this request or if there is another TRCA staff that could provide this information. 220711_Email. Burnside acknowledged letter, and noted the Team will review comments. 220705_Email. Burnside requested whether TRCA have any comments on the Phase 1 and 2 EA Reports (draft Interim ESRs), as comments were requested by Thursday June 30, 2022. 220609_Email. Burnside sent link to download interim ESRs for TRCA and City of Markham staff review, and requested comments by June 30, 2022. 220404_Email. Burnside sent attached Minutes of January 25, 2021 meeting. 220224_Email. Burnside sent email with attached notice OOH #1 211125_Email. Burnside sent email with NOCm

DEVELOPERS												
Gagnon Walker Domes Ltd.	Anthony	Sirianni	Associate Planner					asirianni@gwdplanners.com			210408_Email. Anthony Sirianni, conducting research regarding the EA and requested the status of EA.	221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1. 21201_Email. Burnside responded that the EA has been initiated and attached the NOCm. Burnside noted to contact York Region Transportation Services Edward Chiu to provide comments or request additional information. Contact information has been included on the Project Contact List to receive future notifications. 210412_Email. Region responded that EA had not been initiated yet. Note that the York Region's 2016 Transportation Master Plan was completed with extensive public consultation, which satisfies Phases 1 and 2 of the EA process. The upcoming EA will focus on Phase 3 onwards. Contact information has been included on the Project Contact List to receive future notifications.
Malone Given Parsons	Emily	Grant						egrant@mgp.ca			220127_Email. Emily Grant noted that a list of land owners that was provide and who requested to participate in the SAC was previously provided to the Region, however, it appears none of the contacts received the invitation. The invitation has subsequently been forwarded but request that it also be sent to them directly.	221117_Email. Burnside sent email with attached notice OOH #2. 220725_Email. Burnside sent June 9, 2022 Stakeholder Advisory Committee meeting minutes regarding discussion of Low Impact Development (LID) Options for the two studies. 220224_Email. Burnside sent email with attached notice OOH #1. 220127_Email. Region responded with apologize for the mix up. Burnside will ensure everyone on the attached list are included in the invitation. 211125_Email. Burnside sent email with NOCm

Wagama and Schickedanz	Myron	Pestaluky						myronp@deltaurban.com				221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm
Wagama and Schickedanz	Mustafa	Ghassan						mustafag@deltaurban.com			230529_Email Delta Urban to Alek. Asking to not place stakes within fenced area as property is active horse farm. Labeled flagging tape is suggested to be placed on fence, for clients purposes. 230523_Email. Comments from Delta Urban, would like to see staking completed demonstrating proposed easement, limit of grading, and proposed and existing property limits on West side of Warden to review with client. Understanding Sewer works along this alignment should be completed later this summer, a site meeting once staking can be completed following sewer installation would be appreciated. Like to know if proposed bio swale will have any affect on client's driveway at 10206 Warden Ave. 230123_Email. Delta Urban noted Chris from their office will coordinate this matter with Region and Client. Delta Urban/Client would probably want to see survey outlining limit of proposed working easement and existing site condition(fence, driveway, etc.) 230118_Email. Delta Urban confirmed receipt of email and info. Will need time to review and discuss with client. Will respond with questions following discussion. 220908_Email. Delta Urban requested to see a plan for reference ideally overlaid on an aerial image. 220906_Email. Delta Urban requested to understand whether land taking is expected from the Schickedanz and Wagama parcels, as the land is currently being farmed and the family has no interest in developing the property in the near future.	230601_Email. Region noted surveyor placed stakes in Region's road allowance to indicate existing property, proposed property, and easement locations on property. On south side of stakes you will see label EX. P/L with an offset to identify existing property, and similarly on north side, you will find labels PR.P/L (proposed property line) and EAS. (proposed easement) with offsets on the stakes. All measurements in metres to the nearest centimeter. Once opportunity to review stakes if any questions or wish to review further in greater detail, a meeting to discuss can be set up either virtual or in person. 230526_Email. Region gave date of Tuesday May 30 for surveyor (Alek Janhura) to come out around 9:30am to install stakes on both properties to indicate existing and proposed property line as well as easement. Region gave contact info for surveyor Alek. 230525_Email. Region noted surveyor arranged to come out next week to install stakes in ground to illustrate existing property, proposed property, and easement within the 2 properties. Region will advise when date is confirmed. 230523_Email. Region following up on recommended plan. In process of completing the class EA study, expected to be issued for Public comments June/July. 230413_Email. Region noted they have a more detailed preliminary recommended plan on Warden Ave in front of client's property(attached) for review and comment. Note intersectionshown within client's properties based on approved collector road EA, but may not be constructed as part of road improvements. Construction of intersections dependent on when development will occur adjacent to Warden Ave. Design is still in preliminary design and will be further fine-tuned once Detailed Design Consultant firm is retained, anticipated to commence Aug/Sept. Planning to complete EA by June/July this year. 230119_Email. Region noted to take appropriate time to complete review. Contact Region if additional info is needed. 230118_Email. Region noted preliminary recommendation posted online for Warden Ave. identified the possible property and easement requirements for client's property. Region attached a partial segment of recommended plan by client's property for your info. Purple dash line represents proposed property line, blue shorter dash line represents potential easement required to accommodate grading/raising of Warden Ave. Regions consultant currently completing prelim profile and can be shared once completed. 221117_Email. Burnside sent email with attached notice OOH #2. 220908_Email. Region reviewed current property limit on Schickedanz and Wagama parcels and noted the property line is about 18 to 19 m from the centreline of Warden Avenue. Region noted that the road widening and the boulevard space designated for low impact development (LID) features, tree planting, lighting, utilities, as well as active transportation facilities such as sidewalk and cycle track, requires a width of 20.5 m from the centreline to the back of the boulevard, resulting in approximately 1.5 m to 2.5 m of additional property required from Schickedanz and Wagama parcels. In addition, the Region noted to provide a proper drainage system, it is anticipate the road will also need to be raised to approximately 1 m, resulting in the need for additional grading or installation of retaining wall beyond the 1.5 m to 2.5 m of Schickedanz and Wagama parcels required as indicated above. 220908_Email. Region noted to Delta Urban that Bob Webb from Webb + Co Ltd. advised the Region of the request to discuss the Warden Avenue EA in particular the area associated with the Schickedanz and Wagama parcels. The noted they would be happy to meet, and requested available times. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm

Mustafa Ghassan requested whether land taking is expected from the Schickedanz and Wageman land (a farmer, which has no interest in developing the property in the near future).	221117_Email. Burnside sent email with attached notice OOH #2. 220908_Email. The Region responded that the Schickedanz and Wageman land property line is about 18 m to 19 m from the centreline of Warden Avenue, and that in order to provide the road widening and the boulevard space for low impact development (LID) features, tree planting, lighting, utilities, as well as active transportation facilities, a width of 20.5 m from the centreline to the back of the boulevard will be required. This will result in approximately 1.5 m to 2.5 m of additional property required at the property. The Region anticipates the road will also need to be raised up to approximately 1 m which will result in the need for additional grading or installation of retaining wall beyond the 1.5/2.5 m of property required as indicated above. The Region will share the finalized preliminary design of Warden Avenue once ready. 2208008_Email. The Region emailed Mustafa Ghassan noting that Webb + Co Ltd. had reached out requesting the Region to contact M. Ghassan to discuss the Warden Avenue EA, relative to the Schickedanz and Wageman parcels. The Region noted would be happy to meet and provide greater details, and requested some dates/times. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm
SCS Consulting Group Ltd.	Douglas	Woo						dwoo@scsconsultinggroup.com;				220512_Email. Region requested if SCS Consulting may have any details on the stormwater management for the Berczy Glen development, specifically design for the enhanced corridor to outlet to the existing crossing location, as this information will facilitate our design work at this crossing for the Warden and Kennedy EAs as the team is assessing the culvert size and crossing design at the Bruce Creek tributary crossing.
SCS Consulting Group Ltd.	Noel	Tse						ntse@scsconsultinggroup.com;			220524_SCS Consulting responded that the replication and enhancement design for the BR2-H15 was submitted to Mauricio Saya, at the Region for review in October 2020, and advised on November 10, 2020 that the Region had no comments on the submission. SCS Consulting sent a link of the latest design documents for BR2-H15, and noted the TRCA issued Permit No. C-220226 in March 2022.	
SCS Consulting Group Ltd.	Jill	Stark		30 Centurian Drive, Suite 100	Markham	ON	L3R 8B8	jstark@scsconsultinggroup.com			221114_Email. SCS Consulting sent minutes of November 10, 2022 meeting regarding the Warden Avenue Interim Berczy Green Drive (Street B) and Vine Cliff Boulevard (Street E) intersections. 220727_Email. SCS inquired if the cross section could undergo significant changes as the EA study is advanced or would only minimal changes be expected. 220727_Email. SCS responded that depending on the ultimate Warden Avenue cross-section, an ultimate ROW elevation 0.3 m above the proposed ultimate centreline may create a steeper boulevard condition than desired. SCS noted they would like to use the cross-section to confirm, if it is not available, SCS will assume 0.3 m above the proposed ultimate centreline. 220726_Email. SCS requested clarification whether the preferred cross-section for Warden Avenue had been determined, and if it would be possible to get the potential options for cross-sections. It was noted that SCS needs a rough idea of what is planned to address the Region's comments on the DG Berczy Warden Subdivision. 220706_Email. SCS responded requesting the latest design, to assist in progress of interim intersection submission, and understand the drawings are not final and subject to change. 220216_Email. Meeting held on February 16, 2022 with the Region, SCS Consulting, DG Group, Webb + Co Limited, and Crozier to review adjustments to the vertical profile of Warden Avenue proposed by SCS, and review interim intersection geometry and grading at Street B & Warden Avenue.	221117_Email. Burnside sent email with attached notice OOH #2. 221115_Email. Region responded by email with mark-ups to minutes. 220727_Email. Burnside responded that the Team is waiting for feedback on the evaluation of the three alternative design concepts from TRCA and City of Markham, then will be able to confirm the preliminary preferred design concept and advance the EA Study. Significant changes to the preliminary preferred design concept are not anticipated once it's confirmed. At present, a marked median of up to 1.0 m is being considered for Alternative 3, instead of having no median. This would mean reducing the distance between the curb and LID by up to 0.5 m on each side of the ROW. 220727_Email. Burnside sent attached alternative cross-sections being considered for Warden Avenue. 220727_Email. The Region noted that requirements to address the Region's comment on the DG Berczy Warden Subdivision would be to use the proposed ultimate Warden Ave Centreline elevation to set the Ultimate ROW elevation, which should be 0.3 m above the proposed ultimate centreline elevation in order to ensure the future boulevard can maintain a boulevard cross-slope between 2%-4%. The ultimate ROW limit elevation will then determine how internal subdivision grading is to be designed in order to ensure no runoff from the site will drain onto the Warden Ave. Urbanizing the Warden Ave boulevard is not included in SCS subdivision engineering work so how the boulevard configuration looks like in the future should not have any impact in order to address the Region's comment. 220714_Email. Burnside at the request of Region assembled and sent the most current preliminary plan and profile for Warden Avenue. It was noted that the plan and profile should be viewed as 'interim' as the study team will be updating and refining it as the preferred cross-section for Warden Avenue is confirmed and advance the EA study. 220706_Email. Region requested that SCS contact Jessica Lee, if would like the latest design which is not Final yet or wait for the finalized preliminary design.
SCS Consulting Group Ltd.	Michael	Engel		30 Centurian Drive, Suite 100	Markham	ON	L3R 8B8	mengel@scsconsultinggroup.com			220809_Email. SCS Consulting requested whether there is a plan view centreline grading drawing (with point objects) associated with the below profile, which would be helpful in updating the design of Berczy Glen development.	221117_Email. Burnside sent email with attached notice OOH #2. 220810_Email. Burnside responded that the preliminary plan and profile drawing have been exported again, with zip file including a surface dwg file. If you have any questions contact Rhoshell Baker, Road Designer.
RJ Forhan and Associates Inc	Bart	Ryan	Associate	29 Queens Quay East Suite 607	Toronto	ON	M5E 0A4	Bart.Ryan@rjfa.ca	289-383-4082		230504_Email/Letter in regards to Romandale Farms Limited comments regarding MCEA. Asked to be added to mailing list. Email on behalf of Romandale Farms Limited with attached letter. Letter states concerns with the proposed right-of-way which will extend onto the Triangle(0.63 ha (1.6 acres) parcel which is situated at the southwest corner of Elgin Mills Road East and Warden Avenue) altering the current property boundary. The impact of this IF approved, will result in the reduction of land area as well as the removal or destruction of existing Maple trees which is unacceptable to Romandale Farms. The Maple trees on the Triangle form part of an assembly of 100 Maple trees referred to by Romandale as "Centennial Row". The trees were planted in 1967 by Stephen B Roman and his family to commemorate Canada's Centennial. Also noted, Romandale Farms were not included in the Notices of the first 2 Open Houses. The Bray Heritage's Cultural Heritage Evaluation Report (April, 2021) demonstrates that Centennial Row has cultural heritage value or interest and is eligible for designation and that it provides a cultural heritage landmark at the intersection of Warden Avenue and Elgin Mills Drive East.	230523_Email from Region to Bart Ryan (RJ Forhan) confirming project notices were sent their client using contact informatin from the Region's tax assessment rolls. Noted the Region is aware of the Cultural Heritage features near the Warden Ave, and Elgin Mills Road intersection, but requested more detailed information that may have been prepared in the Bray's Heritage Cultural Heritage Evaluation Report and requested to receive a copy to better mitigate the impacts to cultural heritage features.
INDIGENOUS COMMUNITIES												
Alderville First Nation	Dave	Mowat	Chief	11696 2nd Line Road P.O. Box 46	Roseneath	ON	K0K 2X0	dmowat@alderville.ca				221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1. 211125_Email. Burnside sent email with NOCm

Mississaugas of the Credit First Nation	R. Stacey	LaForme	Chief	2789 Mississauga Road RR #6	Hagersville	ON	N0A 1H0	stacey.laforme@newcreditfirstnation.ca	905-768-1133			221117_Email. Burnside sent email with attached notice OOH #2.
Mississaugas of the Credit First Nation	Abby	LaForme	Consultation	4065 Hwy 6	Hagersville	ON	N0A 1H0	abby.laforme@mncfn.ca;			221212_Email. Marie-Annick Prevost, Ph.D, Field Archaeologist responded after reviewing the Stage 1 Archeological Assessment asking for clarification(from the Archaeologist) on why the private properties beyond the right-of-way have not been recommended for Stage 2 10726 Warden avenue: the aerials provided (Image 22) demonstrate disturbance to the West (old Elgin Mills Road intersection) but it is not obvious that that the 10726 property has completely been graded to subsoil. 10050 and 10084 Warden avenue: Aerials provided (Image 23) show that these properties "were developed" but the pictures do not show grading beyond the driveways. Based on provided info, Marie-Annick would be more comfortable with a recommendation for test pitting at 10m interval to confirm disturbance in the above-mentioned areas. 221118_Email. Abby Laforme responded to notice OOH #2, with appreciation and submitted the following comments: the project is being proposed for development on the treaty lands of the MCFN, more precisely, the Rouge River Valley Tract Claim, thus the MCFN Department of Consultation and Accommodation must be in receipt of all EA reports, and must be engaged for all Archaeological Assessments, including in-field participation by having MCFN community members when any archaeological assessments are being conducted and a review of all reports prior to submission to the ministry for clearance. This engagement is at the cost of the proponent.	221205_Email. Burnside responded with appreciation and noted the comments will become part of the public record for the project. It was noted that a Stage 1 Archaeological Assessment (AA) has been completed and submitted to the Ministry in early November 2022, prior to expiration of Ministry's Project Information Form. Burnside made the report available for review, by a link in the email. It was noted that the Stage 1 AA determined that the Study Areas retain potential for archaeological resources in select areas and a Stage 2 AA is required if these areas are impacted by the project; and that a Stage 2 AA is to be determined depending on the preferred design solution selected and the need for earthworks and ground disturbance as determined during the detailed design process. 221117_Email. Burnside sent email with attached notice OOH #2. 220224_Email. Burnside sent email with attached notice OOH #1.
Mississaugas of the Credit First Nation	Mark	LaForme	Consultation	4065 Hwy 6	Hagersville	ON	N0A 1H0	mark.laforme@mncfn.ca;	905-768-4260		221206_Email. Adam Laforme responded to Burnside's 221205 email, with appreciation for Stage 1 AA, and noted that a DOCA's Field Archaeologist will review and respond with comment within a weeks time. Abby Laforme attached an agreement template for Burnside's review and return a signed copy to arrange for FLR participation. 220303_Call. Burnside spoke with reception, and it was noted that the NOCm was received, and that Mark Laforme would be the contact for this project. No message was left at this time.	230109_Email. Burnside acknowledged receipt of template agreement documents and noted The Region is currently reviewing the agreements to provide a reply soon. 221117_Email. Burnside sent email with attached notice OOH #2. 220425_Email. Burnside as per request, forwarded email with attached OOH (previously sent to DOCA email on February 24, 2022 and earlier email sent to Fawn Sault, regarding NOCm, on November 25, 2021). Per request during phone conversation, copied Abby Laforme, Consultation Coordinator. Acknowledged the community notice they will be commenting on this project and will review and comment. 220425_Call. Burnside spoke with M. Laforme, who requested that the notices be resent to his direct email. M. Laforme (and cc Abby Laforme) noted that the community is no longer using the DOCA email and that a new Consultation Coordinator has been brought on (Abby Laforme) to replace Fawn Sault who is now on Band Council. The location of the project was discussed and the community will be commenting upon receipt of the email Burnside is to send he will get things back on track. 220224_Email. Burnside sent email with attached notice OOH #1.
Mississaugas of the Credit First Nation	Fawn	Sault	Consultation Manager	4065 Hwy 6	Hagersville	ON	N0A 1H0	fawn.sault@mncfn.ca	905-768-4260 289-527-6580 (cell)			211125_Email. Burnside sent email with NOCm
Mississaugas of the Credit First Nation	Adam	LaForme	Archeology/FLR Participation Contact	4067 Hwy 6	Hagersville	ON	N0A 1H2	adam.laforme@mncfn.ca			230306_Email from Adrian Blake. Giving thanks for sharing Stage 1 AAR with the MCFN-DOCA. Stage 1 report looks good, they are in agreement with its findings and recommendations for further work. 230222_Email. Adam attached signed agreements for review and Region signatures. Once signed Adam requests copies for their DOCA records. 230210_Email. Adam apologies for delayed response. Approved to circulate 2023 Agreements. Changes that the legal team suggested have been accepted. Minor updates to the review agreement have been made, specifically regarding the change in Ministry's, track changes on. MCFN is moving away from charging separate Meals, Mileage, Overtime and Holiday rates in favour of one standard rate. Attached is updates with track changes. If any questions, please contact. 221206_Email. Adam Laforme responded to Burnside's 221205 email, with appreciation for Stage 1 AA, and noted that a DOCA's Field Archaeologist will review and respond with comment within a weeks time. Abby Laforme attached an agreement template for Burnside's review and return a signed copy to arrange for FLR participation.	230301_Email from Region. Attached fully executed agreements to undertake Stage 1 and 2 Archaeology assessments by the MCFN. Purchase order is being prepared and will be forwarded when available. Requesting for MCFN to start reviewing Stage 1 AAR earliest convenience to continue moving the study forward. 230221_Email from Region. Confirmation from legal team that updated agreement is acceptable. Requesting signatures from appropriate person on the agreement and to be sent to Region. To generate a Purchase Order to allow the MCFN to participate on the review of the Stage 1 AAR and Stage 2 field investigations, they require an estimate on the cost. Region can work with consultant to determine anticipated duration for Stage 2 field investigations and MCFN rate to determine approx. cost for field work. 230210_Email from the Region. Following up on review of agreements with MCFN. Has review been done? Any comments? Region is planning to finalize the ESR including Stage 1 AAR by April and want to make sure agreements are in place to generate Purchase Order to provide funding for your team to review report, as well as field works that are recommended from the Stage 1 AAR. Requesting to please provide update. 230110_Email from the Region. Legal team has completed review of the agreements. Mark-ups are included for review and comments. Revisions are similar to recent agreements that MCFN has had with the Region, hopefully there are no concerns. The Region provided several revisions to the agreement. Please review and respond with comments or questions. If revisions are acceptable, discussions with the legal team to have the Commissioner sign and forward to you for signatures. The consultant and others were not copied on this email, revisions may not want to be shared with everyone on original email. They will be advised separately so they are aware the Region is working with MCFN to finalize agreement. 221117_Email. Burnside sent email with attached notice OOH #2.

NOTICE OF STUDY COMMENCEMENT

Municipal Class Environmental Assessment Study

Warden Avenue and Kennedy Road Major Mackenzie Drive to Elgin Mills Road in the City of Markham

The Regional Municipality of York is initiating Schedule 'C' Municipal Class Environmental Assessment (Class EA) Studies for improvements to Warden Avenue and Kennedy Road between Major Mackenzie Drive and Elgin Mills Road in the City of Markham. These studies will build on the recommendations from the approved 2016 York Region Transportation Master Plan.

Through the EA studies, York Region examines how to complete the identified infrastructure and active transportation improvements, and to mitigate any environmental impacts.

Information about open houses will be published in this newspaper and posted on york.ca/WardenKennedyStudy and York Region's Facebook and Twitter channels.

Public consultation is an important part of the EA study. **York Region welcomes resident and stakeholder input throughout these studies and is seeking community members to form a stakeholder advisory group.** This group will meet at key milestones to provide feedback.

To submit a comment or question, apply to be a member of a stakeholder advisory group or to be added to the project mailing list, please contact:

York Region Transportation Services

Edward Chiu, P.Eng., Senior Project Manager

17250 Yonge Street

Newmarket, ON L3Y 6Z1

Phone: 1-877-464-9675 ext. 75908

TTY: 1-866-512-6228

Email: Edward.Chiu@york.ca

To better assist you, please quote Warden and Kennedy EAs in your inquiry.

The study is being conducted in accordance with Schedule 'C' of the Municipal Class Environmental Assessment document (October 2000 as amended in 2007, 2011 and 2015). Personal information submitted (e.g. name, address, and phone number) is collected, maintained, and disclosed under the authority of the *Environmental Assessment Act* and the *Municipal Freedom of Information and Protection of Privacy Act* for transparency and consultation purposes. Personal information submitted will become part of a public record that is available to the general public unless it is requested that the personal information remain confidential.

An accessible version of this notice is available upon request.

This notice was first issued on November 25, 2021.

Wayne Emmerson

York Region Chairman and CEO

NOTICE OF ONLINE OPEN HOUSE

Environmental Assessment Study

Warden Avenue and Kennedy Road Major Mackenzie Drive to Elgin Mills Road

City of Markham

The Regional Municipality of York is conducting Schedule 'C' Municipal Class Environmental Assessment (Class EA) Studies in the City of Markham for improvements to Warden Avenue and Kennedy Road between Major Mackenzie Drive and Elgin Mills Road.

WE WANT TO HEAR FROM YOU

You are invited to take part in an online open house to learn about the study process, road improvement design options and to provide feedback.

When: View materials from **February 24, 2022 to March 24, 2022**

Where: Visit york.ca/WardenKennedyStudy to access the online open house materials

Comments: Share your comments through the online open house or email the Project Manager by March 24, 2022.

Please let us know if you require accommodations to participate in the online open house. Accessible versions of this notice and online open house materials are available upon request.

York Region's number one priority is protecting the health and safety of our communities and staff. As we monitor the ongoing COVID-19 pandemic, we are committed to effective engagement and consultation with the public and stakeholders in accordance with the Environmental Assessment process.

To submit a question, comment or request to be added to the project mailing list, please contact:
