### **Information on Dental Supports**

#### **For Children**

Children aged 17 and under covered under the Interim Federal Health Program (IFHP) and Healthy Smiles Ontario (HSO) can access dental services. Children of families receiving Ontario Works are automatically enrolled in HSO and should have a coverage card. If you have not received a HSO coverage card for your children, please contact your Ontario Works caseworker.

To find a dental provider who accepts payment from HSO, call York Region at 1-877-464-9675 ext. 74388, Monday to Friday between 8:30 a.m. and 4:30 p.m.

When you call, the team can also support with translation services to book the appointment if needed.

#### **For Adults**

IFHP provides limited, temporary coverage of health care benefits for refugee claimants. Some dental care must be pre-approved before it is eligible to be covered by IFHP. If you have question, please see Canadian Red Cross staff onsite.
