INTEGRATED MANAGEMENT SYSTEM (IMS) POLICY

ISO 9001 ISO 14001 DWQMS

Our innovative people leverage technology and data to provide water, wastewater and waste management services that protect public health and the environment, meeting the needs of our thriving communities.

We are committed to the following objectives:

Integrated Management System Policy OBJECTIVES

Mitigate system risks and our environmental impact related to day-to-day activities through prevention of pollution

Comply with legislation and requirements; report to Council and IMS top management on system performance, including provision of safe drinking water

Monitor operational performance and emerging risks to maintain infrastructure that provides quality services to our communities

Maintain and continually improve our management system to enhance quality and environmental performance

Integrity • Commitment • Accountability • Respect • Excellence
