

Trisorter Video Transcript

Here we are in the Recycle Room where all the diversion takes place.

Here is our paper recycling bin, our traditional green bin, and of course the garbage.

When you press the button upstairs, if you hit the blue button for paper recycling, the damper and the Trisorter slides over and drops it into this bin.

When you hit the green organics [button] it drops into the green organics [bin].

And of course, when you just hit the garbage one, garbage goes to garbage.

Using these two bins we divert thousands and thousands of tons away from landfill every year.

We appreciate it, your kids appreciate it and your neighbours appreciate it.

Thank you for taking the time to watch the video. If you have any questions, please contact your property manager or the on-site superintendent.
