## Municipal Class Environmental Assessment Study Northeast Vaughan Water and Wastewater Servicing

City of Vaughan

April 11, 2019

The Regional Municipality of York has completed a Schedule B Municipal Class Environmental Assessment (Class EA) study to establish the preferred solution to provide new water and wastewater infrastructure needed to service the anticipated growth in northeast Vaughan to the year 2051.

As a result of the study, York Region has identified the preferred solution to service the northeast Vaughan area through the construction of two elevated water storage tanks, two water pumping stations, watermains associated with the storage tanks and pumping stations, and a new gravity trunk sewer network.

This notice places the Project File on public record for review and comment for 30 calendar days from April 11, 2019 through to May 13, 2019. The Project File is available for public review on [york.ca/ea](http://york.ca/ea) and a copy is available at the following locations during regular business hours:
