Central LHIN September 2015

Data Source: Central LHIN Boundary, MOHLTC; Census Subdivision (CSD), Population Counts (2011) Statistics Canada.

# Central LHIN Sub-region Map and Key Stats

## Data Sources:

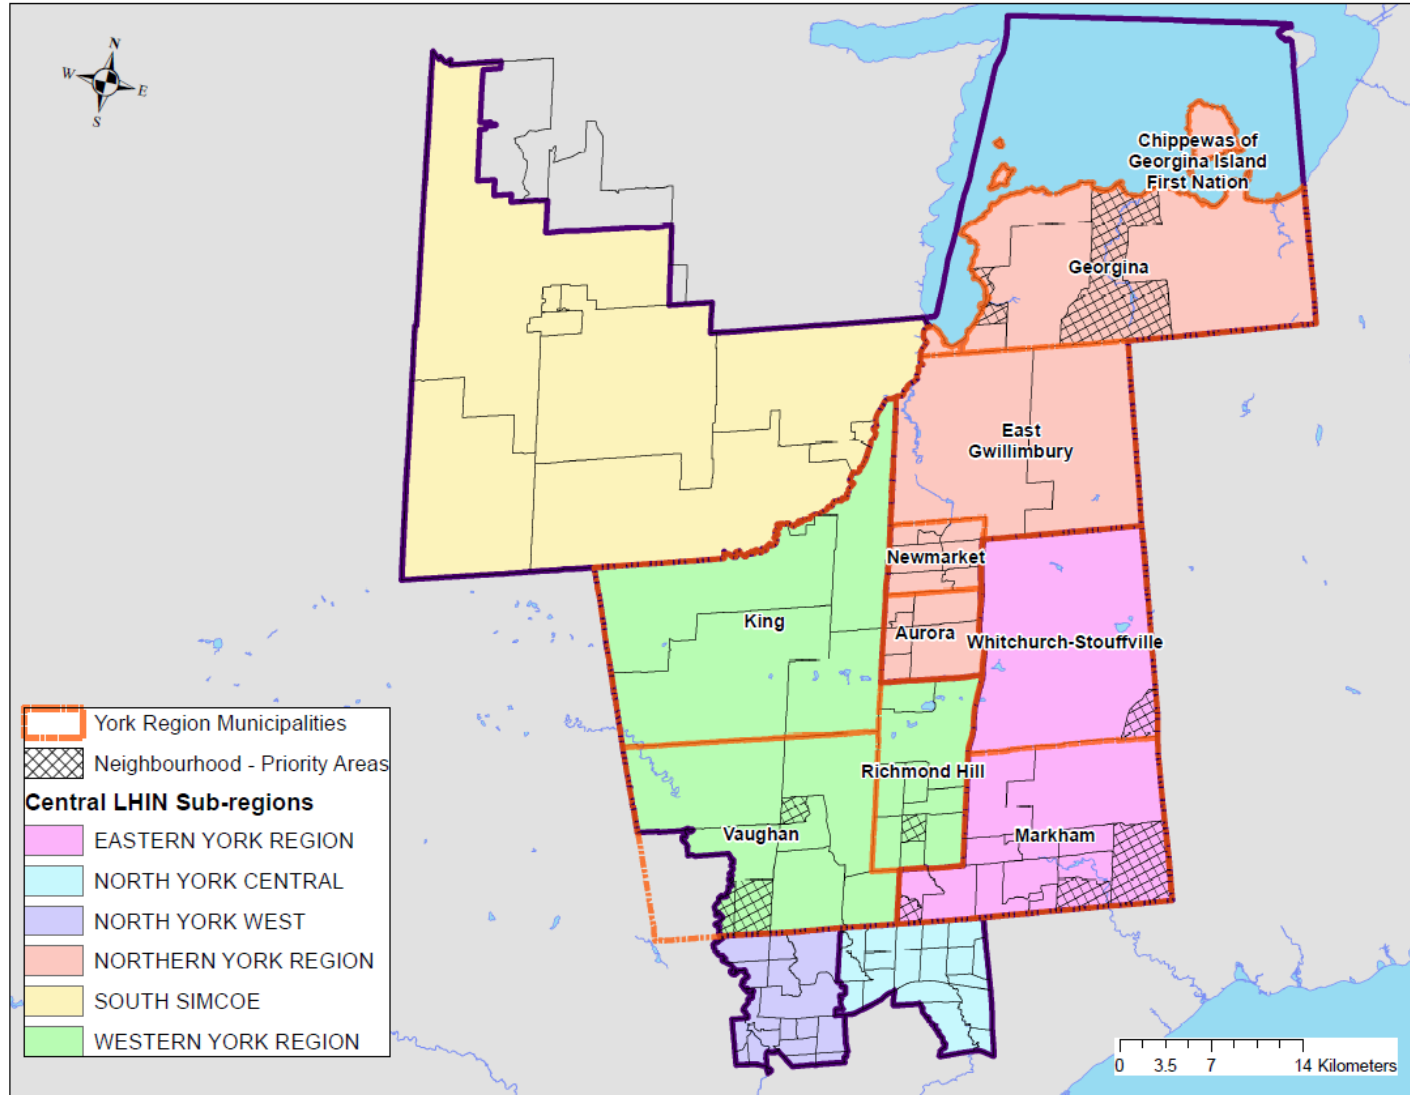

\*Estimates for Population, Pop 65+ and % of Low Income: LHIN Sub-region Population Social and Economic Profile (Feb 28 2017), Health Analytics Branch, MOHLTC.

<sup>^</sup> ED visits: ED visits crude rate. IntelliHealth Ambulatory Care, AM Case Type equal to EMG AND Fiscal Year 2014-15 AND Patient LHIN = Central LHIN. Due to data limitations, ED visits per 1000 population are available at North York level only.

<sup>~</sup>Long-Term Care (LTC) Beds: Number of licensed LTC beds within Central LHIN boundary (Internal Tracking).

# Priority Neighbourhoods in York Region

(Northern, Eastern and Western Sub-Regions)

# What is a Priority Neighbourhood?

Neighbourhoods that showed:

- 1) High utilization of health care services:**
- 2) Low cancer screening rates and/or high prevalence of chronic disease**
- 3) Poor socioeconomic status:**
  - High proportion of population age 65+ living alone
  - Lowest average household income levels

# Priority Neighbourhoods

Sub-region	Unique characteristics	Priority Neighbourhoods
Northern York Region	<ol style="list-style-type: none"> <li>1) Remote, lack of access to specialists</li> <li>2) Indigenous reserve</li> <li>3) High ED utilization relating to MHA</li> </ol>	<ol style="list-style-type: none"> <li>1) Sutton</li> <li>2) Keswick West</li> <li>3) Keswick South</li> </ol>
Eastern York Region	<ol style="list-style-type: none"> <li>1) Hidden prevalence and influence of non-traditional health care due to cultural diversity</li> <li>2) High diabetes prevalence</li> <li>3) Multi-generational households</li> </ol>	<ol style="list-style-type: none"> <li>1) Cornell and Markham East cluster</li> <li>2) Thornhill South</li> <li>3) Stouffville</li> </ol>
Western York Region	<ol style="list-style-type: none"> <li>1) High demand for mental health and additions services, growing waitlists</li> <li>2) High ED Utilization among youth</li> <li>3) Cultural diversity and access to care</li> </ol>	<ol style="list-style-type: none"> <li>1) Richmond Hill C</li> <li>2) Maple Teston</li> <li>3) Woodbridge East and Southeast cluster</li> </ol>

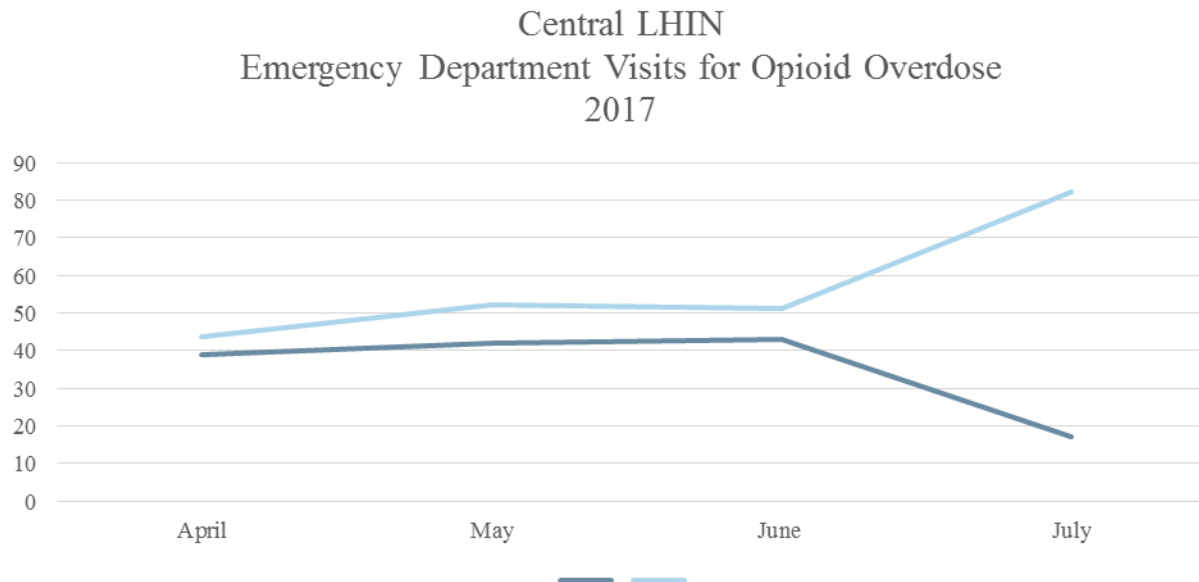

# Examples of Priority Projects in York Region

- **Seniors Care** (enhancing home care, assisted living, adult day programming, dementia strategy, respite, caregiver supports, alternatives for LTCHs (e.g. creative use of retirement homes))
- **Palliative Care and Residential Hospices** - Margaret Bahen Hospice: 10 beds opening in Nov 2017, Hospice Vaughan plan for 10 beds in 2019
- **Strengthened Community Care** – Integrated Care Coordination (e.g. Health Links), Digital Health, care coordination solutions, inter-professional team models
- **Mental Health and Addictions** – Mental Health Hub (emerging), coordinated Opioid Strategy, anticipation of 108 supportive housing units
- **Indigenous health planning** and engagement (Georgina Council, Indigenous Cultural Safety Training)
- **Hospital** redevelopment planning and expansions - new Mackenzie Vaughan hospital projected to open in 2021

# Central LHIN Addictions & Opioid Strategy

Develop and implement a comprehensive, three-year Central LHIN Addiction Strategy that addresses current opioid challenges, and is in alignment with Provincial and Municipal strategies to better support all communities within our region.

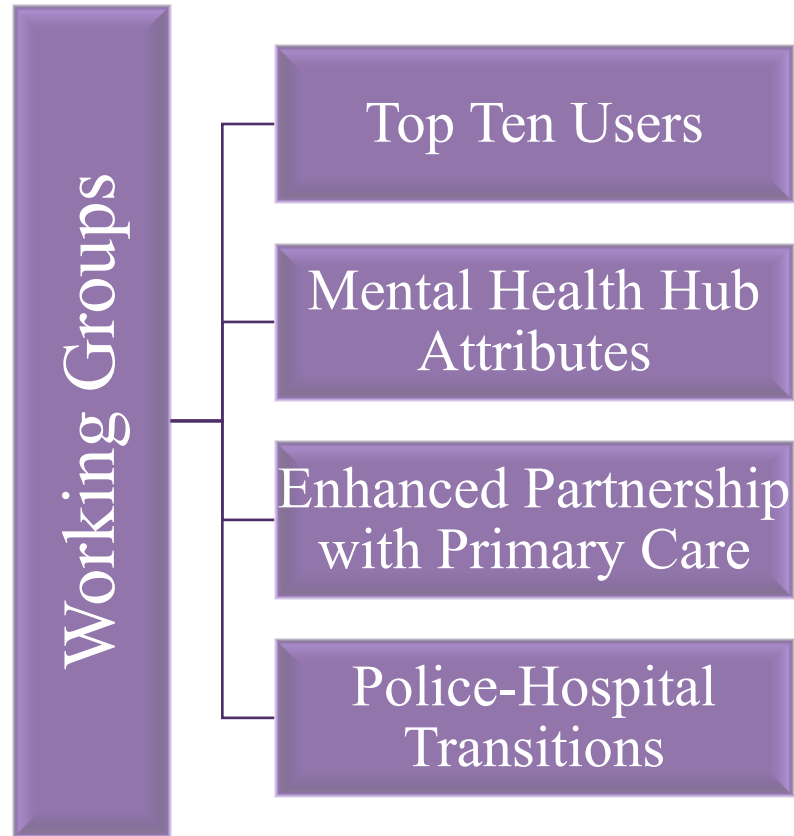

Source: National Ambulatory Care Reporting System (NACRS), August 2017

# Development of a New Mental Health Hub in York Region

## York Region Mental Health Hub Committee:

- Federal and provincial Members of Parliament
- York Region hospitals
- Mental health and addictions service providers
- Region of York, Paramedics and Seniors Services
- York Region Police

# Sub-Region Collaborative Planning Tables

Focus on working collectively to identify, plan and implement change opportunities that address unique sub-region challenges in alignment with provincial priorities and local need. Sub-region planning tables will be tasked to:

- ✓ Create strong local and regional partnerships to improve local access to care;
- ✓ Define opportunities to improve service delivery, build capacity and improve integration across the healthcare system that facilitates seamless transitions for patients, caregivers and providers;
- ✓ Work together with the LHIN to locally engage with residents, patients and other system partners to best understand sub-region needs at the neighbourhood level;
- ✓ Prepare recommendations for implementation to improve local care that is aligned with the Patients First Mandate as identified in Central LHIN sub-region reports and summaries;
- ✓ Plan, implement and monitor local improvements

# Leverage Existing Partnerships and Initiatives

- Continued alignment through **Public Health**
  - Chronic Disease Prevention and Management strategy
  - Opioid Strategy
  - Community Partnership Council (support newcomers)
- **Community Paramedic Services (EPIC Program)**
  - Viewers access to Home and Community Care CHRIS system
  - Health Links collaboration tables
- **York Region Police** and crisis response
  - Situation Tables with hospital, mental health and additions and Health Link partners
