**Subject:** Extension of 15th Side Road from Keele to Jane/400

Please consider this email as our expression of our very strong opposition to the extension of the 15th Side Road.

A number of years ago a similar extension plan was cancelled due to environmental concerns to our wells and the whole water table for Kingscross Estates. An environmental study was done at that time. The plan to extend the 15th would just further deteriorate the sensitive environment of the Oak Ridges Moraine. The existing attributes need to be protected.
