Re: Participation and notification request regarding the revision of the York Region Official Plan

The Preserve Thornhill Woods Association was formed to protect and enhance Thornhill Wood's standing as one of Vaughan's most prestigious neighbourhoods by protecting the environment, preserving open and wooded space landscape, natural habitats for wildlife and maintaining the low density character of our community.

We are a registered and incorporated ratepayer association in the vicinity of Thornhill woods, bordering in the south by Highway 7, East Bathurst, West Dufferin, and North Rutherford. As a ratepayer association, we would like to be actively involved in the process of the creation/modification of the new York Region Official plan. We will be honoured to be able to participate in the process of shaping the future of our region and our neighbourhood in particular.

We kindly request to be notified about any meeting, reports, and correspondence involving the revision of the official plan.

We would like to note that we support the current VOP 2010 and would expect that it would be maintained; especially since it is relatively new.

We also find that it reflects our neighbourhood best, and would not be supporting any changes that may negatively impact our neighbourhood.

We would like to mention that we are very concerned about traffic, especially traffic cutting through our neighbourhood. If there are improvements being recommended for any of the major and regional routes that borders our neighbourhood, we expect to be included in the consultation

Thank you kindly,

Rom Koubi – Chairman
