

MEMORANDUM

TO: Members of Committee of the Whole

FROM: Adelina Urbanski, Commissioner of Community and Health Services

DATE: September 4, 2014

RE: **9060 Jane Street, Vaughan - Programs and Service Update**

I am pleased to provide an update on the Program and Service Delivery plan for the new 9060 Jane Street location. The new facility is designed to provide citizens access to a variety of services and clinics at street level.

The building allows for expansion of service offerings, in particular the establishment of Public Health programs and services in the southwest of the Region. The facility also provides space for Social Services programs including the movement of employees from the 3901 Highway 7 leased facility.

The building will house 196 employees at start up with space for up to 230 at full capacity. Occupancy of the building will start in November 2014. The following programs and services will be provided at the location:

- Prenatal education
- Breast feeding clinics
- Dental screening and preventive oral health services for eligible children
- Sexual health clinics
- Private well water drop-off for bacterial analysis
- Immunization clinics
- Ontario Works
- Early Intervention Services

The 9060 Jane Street location is conveniently located at the intersection of Jane Street and Rutherford Road directly across from the Vaughan Mills Terminal, providing ease of access for citizens.

If you require additional information about CHS programs and services at this location, please contact Krista Oliver, Director of Business Operations and Quality Assurance at Ext. 72088.

Adelina Urbanski
Commissioner of Community and Health Services
