DATE: January 23, 2014

RE: **2014 Water For Tomorrow Calendar**

The Regional Municipality of York is pleased to present the 2014 *Water for Tomorrow* student calendar. This edition features 12 original drawings created by York Region Grade 7 students from the 2012-2013 school year. These students, now in Grade 8, have offered their unique vision of water responsibility in York Region.

This year's creative messaging highlights the value of continued education and promotion of water conservation and protection. The calendar notes a number of environmental events, such as Earth Day and World Water Day and also includes water and environmental education content and information. Specifically, the calendar further promotes components of the *Water for Tomorrow* program, including water-efficient landscaping, the York Children's Water Festival and tips for water conservation at home.

Erin Mahoney, M. Eng.
Commissioner of Environmental Services
